About Us

Crypto Expo Europe is the largest Crypto and Blockchain conference in Eastern Europe, with a 10 years experience in Global Expo Events with more than 4000 attendees/edition, our company was searching for new markets, and, since Romania has one of the highest Crypto adoption in Europe, this event came naturally to us.

From the start Crypto Expo Europe's mission has been to share an educational experience for all crypto enthusiasts, and to offer meaningful connections.

We have a few key points that an international event should follow and that were implemented in this expo also:

- Valuable speakers in the industry, that will be selected by us
- Topics chosen together with an experienced team, to bring important knowledge to the audience
- Project/Company presentation that will have the full audience, nothing will be in the agenda in that moment
- Main competitors in each field to bring attendees that are using different platforms and can share their experience
- Great Social Networking areas: dinners at 5 Stars Restaurants,

Best clubs in Europe and cocktail breaks

- Special VIP business lounge
- B to C type of event, so you can always have an opportunity for business
- 40 booths
- 3 stages: 1 Main, 1 for niche projects, 1 for startups
- 1 Special keynote/edition - we will select, each year, a person that had an impact in the industry
- C-level audience
- Award Gala Ceremony, a live and transparent voting system, that will bring as winners the best in their field
- Open attendee list for everyone to be able to connect before and after the events
- Social media Marketing: Interviews, Banners, Presentation, Newsletter
- Different type of exposure for different levels in the industry

Services:

- Airport pick-up
- Free Lunch
- Open bar at the parties, special guests invited
- 5 Star Hotel
- Transportation for all the outside of the Venue Events
- All the expo materials will be ordered, executed and implemented at the agreed location by our team
- Dedicated account managers that will take care of your sponsorship and team
- Anything that you need we can do it for you: dinner reservation, champagne delivery, a new suit, you name it we organize.

Why Are Crypto and Blockchain Booming in Bucharest, Romania?

You might not immediately think of this medium country in the Central / Eastern Europe region when you hear the term 'blockchain and crypto boom'. And yet, it is Romania that is offering the world some of the greatest engineering and innovating minds when it comes to the crypto and blockchain industry development, and also a great enthusiastic adoption rate. This is also where the top-level event Crypto Expo Europe is scheduled to take place.

✔ **Strong ties between the crypto and blockchain Romania startups**

The country is known for both its numerous tech and fintech startups (only last year 100 new AI startups have been registered) AND the strong ties between them.

✔ **Unique tech talent driving forward innovation**

The Romanian tech talent is internationally renowned, being the second largest IT sector and economy in the CEE. Here you can find world-class engineers, developers, marketers and all the IT professionals that a crypto and blockchain projects needs to be able to compete with Western counterparts.

✔ **An already established industry conference circuit**

There are plenty of other exciting events that take place in Romania that put the country on the map for professionals who are veterans of the blockchain and crypto conference circuit.

✔ **A tradition of being at the forefront of blockchain and fintech innovation**

With this much local talent and a yet unsaturated market, Romania is the perfect place to foster a blockchain and fintech startup boom. For now, there is only one company that achieved the highly coveted unicorn status, UiPath, but VCs and analysts pinpoint to a promisingly active startup stage being built locally.

✔ **Tech talks hubs with strong industry ties**

In any given month of the year there are at least 3 hackathons or community meet-ups for various tech niches, both grassroots-driven (like the successful Code for Romania gov-tech NGO) and industry top-down talks.

✔ **Great local attractions while you take a break from attending talks**

Last, but not least, we should mention that Bucharest is a great city to visit, especially so in recent years as the city's development made it a lovely and cosmopolitan place. This is also thanks to the local tech boom that breathed a new economic life into the Romanian capital.
